

CLIENT SPOTLIGHT

Name: Flor Amaya

Program: Pathways

Referral Partner: Monument Impact

1. What brought you to Wardrobe for Opportunity?

I was referred by Monument Impact as a student in the Advanced Technology Program.

2. What was your employment situation prior to your participation in Pathways?

I have worked at Carlton Senior Living for the last fourteen and a half years. My position as of December 2018 was Personal Care Lead.

3. What did you learn in Pathways and how are you applying it to your employment situation?

This program changed everything in my life, from the way I dress to enriching my abilities at work. It made me feel confident about myself, and made me able to surpass any level of professional interviews. When I saw myself in the mirror and saw a new woman with new expectations in the professional world, with the right clothing and accessories, I told myself,

“I AM READY FOR THIS NEW GOAL OF BEING SUPERVISOR PM AT CARLTON SENIOR LIVING PLEASANT HILL-DOWNTOWN.”

4. How has your graduation from Pathways changed your life?

Too much to say! I am very thankful for the wonderful combination of services that Monument Impact and WFO have provided. Thank you because you have made me a new person. I feel very capable of being a high-quality professional who is ready to perform or develop myself in the workplace and produce impeccable results. This is an essential part when we talk about being professionals, without it, we would not be able to show our employers our ability and desire to be part of the organizations we are working for. I feel happy, complete, equipped, and enthusiastic with all of the knowledge that I can offer now to my employer.

Flor (second row, third from the left), and the Fall 2018 Pathways graduates at Monument Impact.
